**TLC:** The following two books were inadvertently put on the "free" credenza by the front doors of the Technical Learning Center: Field Guide to MS-Access TLC-5236; Field Guide to Internet with Windows 95 TLC-5727. If you have seen these books, please return them to the TLC or mail them to BOC-132. (HM-INF)

**PRINTING/COPYING PAPER USERS:** The NASA HQ Code JT has set a goal for each center to reduce the annual use of paper stocks by 10 percent. Suggestions on how to accomplish this goal are printing on both sides of the paper; circulating, posting, and publishing memoranda and other information using email, bulletin boards, routing slips, newsletters; and distributing documents in electronic format via file servers or home pages to avoid making copies on officer copiers. Your support in implementing these suggestions will help meet KSC's paper reduction goal. (IM-SST-A)

**FLAGS AT HALF-STAFF:** The flags of the Kennedy Space Center were flown at half-staff on Friday, August 23, 1996, in honor of Mr. Stuart F. Sarbry, a design engineer with Lockheed Martin with thirty years service to KSC, who died on August 16 and was buried on August 23. (IM-SPS-B)

August’s packet will include information on how to lose weight and prevent illness and disease with exercise and nutrition. Packets will be available at all three medical facilities in August, or upon request to Carol Roth, BOC-005 (867-2026) (JJ)

All unauthorized persons and vehicles will be reported to Security. (PA-VCB)

**LAUNCH VIEWING:** Rooftops are OFF LIMITS to normal access, including during launches. Many rooftops are of the “soft” construction variety, and will not support a person’s weight without damage. DO NOT walk out onto rooftops, unless they have been specifically cleared for unescorted access. (RT-SRD-3)

**PHILATELIC SERVICES:** KSC personnel are reminded that requests for cancellations for Shuttle launches and/or landings should be delivered or mailed directly to ATS Mail Services, KSC Headquarters, Room 1546, or OSB, Room 1207, prior to requested cancellation date. Envelopes that are mailed should be placed in another envelope or other appropriate wrapping and addressed to ATS. Envelopes arriving loose in the mail system risk being canceled the same day they are received, if the request for cancellation service is not clear. Do not deliver or mail requests to the KSC Post Office. Direct questions to ATS, 867-2414. (IM-SST-A)

**TECHNOLOGY TRANSFER PROGRAM:** The main purpose of NASA’s Technology Transfer Program is to transfer new technology to commercial organizations for ultimate benefit to the general public. The new technology items so transferred are often referred to as “Space Spinoffs.” Therefore, KSC and contractor employees are urged to participate in this important program by reporting their items of new technology. Such items may include any new or improved technique, tool, computer program, management systems or scientific data. KSC or contractor employees whose items qualify for publication in NASA Tech Briefs will receive a \$150 award. In addition, a technical article or report on a research or development project may also qualify as a NASA Tech Brief. New Technology items should be reported on NASA Form 666A to the KSC Technology Transfer Officer, Jim Aliberti, DE-TPO. For copies of NASA Form 666A or assistance in reporting new technology items, call 867-3017. (DE-TPO)
